

Prieto moves to a new office focusing in a collaborative work system

Since July, Prieto's team will move to their brand new offices on the 15th floor of the CV Galería Building, at Alonso de Córdova 4355, Vitacura. A modern office designed in open spaces, following international models and allowing capacity to grow.

Focusing in a collaborative work system, where horizontality, integration and flexibility are the key elements, Prieto leaves behind closed spaces, giving way to large workspaces where partners, counsels and associates works together collaboratively. This work system reinforces one of Prieto's hallmarks: partners and their team of associates working together for the benefit of the client, strengthening teamwork and enhancing the professional growth of their lawyers.

"After 20 years working in the same office and with the experience after Covid-19 pandemic, we decided to begin a new cycle in our firm's history. We searched for a modern office that would allow us to implement a collaborative work style and continue with the growth we are experiencing. The CV Galería building fulfils all of our requirements and our office is located on the top floor with 360-degree views of the city, in an excellent area of Santiago," explains Benjamín Grebe, chairman of the board at Prieto.

Just as 20 years ago Prieto was one of the first firms to leave downtown Santiago to get closer to the client, this 2022 Prieto innovates and implements a modern system, of international standard, that generates spaces of trust, encourages the sharing of experiences, exchange of knowledge and promotes critical thinking. The new offices have 15 meeting rooms, study areas, phone boxes and a large cafeteria for the team to enjoy.

This change in infrastructure was made also with a powerful technological investment that includes the update of equipment for all members, a new document system, implementation of multi-platform conference rooms, digitalization of all documents, and business intelligence software that allows us to make billing, profitability and rate decisions with reliable and timely information.

"With this change we believe that we are ahead of the future of law firm work style, we have international experience that supports us and we are aligned with their standards," states Grebe.

Prieto is a law Firm with more than 45 years of experience, *full service* and focused on advising national and foreign clients in the business world. It is made up of 60 committed, close and creative lawyers, dedicated to client service in all areas of law.
